

I Am One With God

I am in harmony with God's love and peace

Like a flower blooming

that will never cease

Spreading beauty as it opens up

Nature helps me fill my cup

And I am one with God

I feel divinity flowing through my soul

When I lean on my faith

and let go of control

I close my eyes and say a prayer

Then surrender and declare

That I am one with God

Yes, I am one with God.
